hereby make(s) application for permission to change the

☒ Point of diversion☐ Place of use☒ Manner of use☐ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim-Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit 47331, Certificate 134021. The source of water is underground - PW-3

Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 0.86 c.f.s., not to exceed 54.749 mga, 168.02 AFAGive diversion rate in cubic feet per second (CFS) AND duty in acre-feet annually (AFA).3. The water to be used for mining, milling & dewatering

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for mining & milling

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

within the SE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 17, T. 27N., R. 34E., M.D.M. or at a point from which the SE Corner of said Section 17 bears South 78° 30' East, a distance of 1,055 feet. (PW-3)

Refer to supporting map on file under Application 47330, designated Well #4. PW-3 will be within 300 feet of this point.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

the SE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 17 T. 27N., R. 34E., M.D.M. or at a point from which the SE Corner of said Section 17 bears South 19° East, a distance of 930 feet. (PW-1)

Refer to supporting map on file under Application 47330, designated Well #2.

8-101A  
Pe

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

No Change.

All of Sections 7, 8, 9, 16, 17, 18, 19, 20 and 21, T. 27N., R. 34E., M.D.M.

Refer to supporting map on file under Application 47330.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

All of Sections 7, 8, 9, 16, 17, 18, 19, 20 and 21 T. 27N., R. 34E., M.D.M.

Refer to supporting map on file under Application 47330.

9. Proposed use will be from January 1st to December 31st of each year.  
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, pump, motor, meter, storage tank, pipeline.

12. Estimated cost of works \$350,000.00

13. Estimated time required to construct works one (1) year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use five (5) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Proposed production/dewatering well PW-3 will replace existing well PW-1 which will be mined through by surface mining operations in 2020. Replacement well PW-3 will have approximate TD of 900 ft and be constructed with potable water supply-compliant casing (approximately 12" diam). Pump to be installed will be new and potable water supply-compliant with capacity to pump ~450 gpm through HDPE piping to existing 230,000 new water supply storage tank which will discharge through piping to supply water to an ore crusher for fugitive dust control, heap leach process for make-up production water, fire protection water, and other minesite consumptive uses.

16. Miscellaneous remarks:

Current mine schedule is for existing PW-1 to be non-operational in early 2020. Current drilling schedule for this new dewatering well PW-3 is 1st Quarter, 2020. A Temporary Application to facilitate this schedule is being filed concurrently.
